	presented			42. Garbage and refuse properly disposed of, facilities maintained			51. Permit Suspension			

### **Opening Comments**

## 7B. Proper cold holding temperatures.

Potentially hazardous cold foods shall be held at or below 41°F. (113996, 113998, 114037, 114343(a))

Inspector Comments: Multiple potentially hazardous foods found at temperatures between 42F-49F in front counter prep cold hold unit and counter-top cold hold unit at rear front prep area. PIC stated cold hold units are turned on each morning and foods from rear cold hold units are placed in prep area cold hold units. PIC stated cold hold units will be turned on earlier in the morning to allow time for units' temperatures to lower. Adjust procedures and monitor units temperatures to ensure potentially hazardous foods are held at 41F or below when held cold.

## 38. Adequate ventilation and lighting, designated areas, use

Adequate lighting and ventilation shall be provided. Exhaust hoods should be approved and maintained. (114149, 114149.1, 114149.2, 114149.3, 114252, 114252.1)

Inspector Comments: Lights in front and rear hoods were observed to be non-operational. Repair or replace light bulbs. (REPEAT)

It was agreed that a copy of this report will be sent to the email address on file. The person in charge was directed to call this office if the report is not received within two business days. Additional information can be found at www.ehs.fullerton.edu
